

WINDTALKER is an innovative content protection solution designed for non-technical business professionals. Freely share information with assurance that your data will be protected and available to only the intended audience throughout its lifecycle.

UNIQUE CORE FEATURES:

Self-Protecting Data

Protects portions of a file (content), no matter where content is stored, accessed or sent.

Differential Sharing

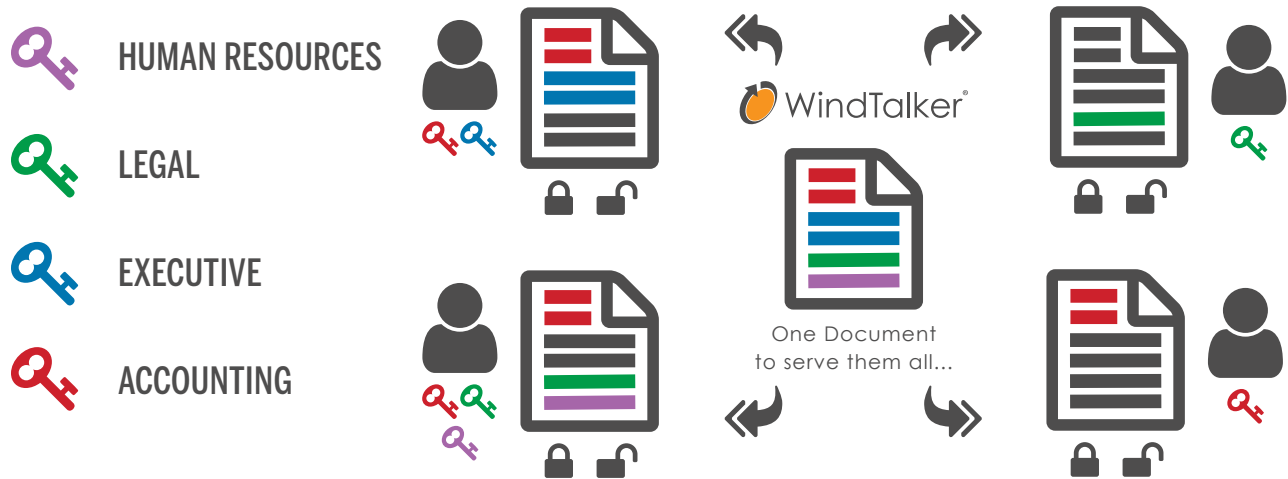

Document has multiple users and access permissions, but data is encrypted in one file.

Protected Data Portability

Ability to cut and paste protected MS-Word or Adobe PDF objects - the protection travels with it.

“THE VALUE OF WINDTALKER to the business and its users is not just more or better security — WindTalker reduces steps in the workflow to protect and share information, creating significant ROI to the business. Better security that drives lower cost!”

— Managing Partner, Top 50 Law Firm

HOW IT WORKS:

CLICK-PROTECT-SHARE: WindTalker works the way you do, within your most commonly used applications. Simply click on the data you wish to protect, assign access to individuals or groups, and share the newly protected document. The protection follows your document throughout its lifecycle, no matter how it is accessed, copied, pasted and attached.

FREE TRIAL ACCOUNT: Getting started is easy. Simply visit our web site at windtalkersecurity.com and click on “Sign Up”. Our team will help you set-up the trial account that is right for you and you can start protecting your documents immediately.

EASY ADOPTION: Pay a low monthly user fee for unlimited use, documents, device types, upgrades, and full helpdesk support. Add more users as your needs grow, and rest assured that your documents are protected even outside of the firewall or corporate network.
